### **National Fire Academy**

(Click for information on the National Fire Academy)

**Emmitsburg, MD**

In this 6-day course, EMS personnel, officers and/supervisors will review the Incident Command System (ICS) and study proper incident command techniques for management of medium to large incidents involving multiple sick or injured patients. This course uses practical application of ICS, applied to a variety of incidents, using functional exercises and scenarios.

Topics covered include:

- Problem-solving and EMS functions within incident command
- Resource management and interagency and mutual aid
- Size-up and strategy and tactics and action plans
- EMS company operations
- Preincident preparation
- Incident organization
- Strategic command
