

VIRTUAL EMS LECTURE SERIES

Pediatric Trauma

**Presented by:**

Louis Durka, MD, NRP, EMC
Pediatric Emergency Fellow
Inova Children's Hospital

Monday, October 19, 2026
10:00–11:00 a.m. EDT

**Objectives:**

- Recognize injury concerns based on mechanism in pediatric trauma.
- Consider transport needs for pediatric patients with traumatic injuries.
- Identify signs and symptoms of life-threatening pediatric injuries.
- Discuss management of life-threatening injuries in pediatric trauma.
- Identify and manage suspected non-accidental trauma and child abuse in injured pediatric patients.
