“TRAUMA INFORMED CARE”

This patient-facing lecture will focus on why our patients have health and behavioral crises and the role of trauma in our lives, our health, and our development.

BLS 14

ALS 19

2hrs

**Presented by Marybeth Henry
Sterling Volunteer Rescue Squad**

Marybeth Henry volunteers with Sterling Rescue in Loudoun County. She teaches high-school EMT, is a part-time instructor at the Loudoun County Fire-Rescue Academy, and is an Advocate Instructor for the National Fallen Firefighters Foundation. She brings more than 30 years of lived mental health experience to the table and is a leading advocate for mental health education and care, not just for patients but for providers, as well. She has been recognized as Member of the Year by Sterling Rescue and currently functions as a member of their Training Division. She holds a Bachelor of Science from Georgetown University
