

Western Virginia EMS Council is excited to announce that we are now an Officially Aligned Training Site with the American Heart Association and Heart Alert Community Training Center.

With that, we will be offering the following courses in the coming months.

ACLS – Advanced Cardiac Life Support is an advanced course that builds on the foundation of lifesaving BLS skills, emphasizing the importance of continuous, high-quality CPR, and high-performance team dynamics. Offerings will include provider/initial, renewal/update and HeartCode Checkoffs.

PALS - Pediatric Advanced Life Support uses a series of videos and simulated pediatric emergencies to reinforce the important concepts of a systematic approach to pediatric assessment, basic life support, PALS treatment algorithms, effective resuscitation, and team dynamics. Offerings will include provider/initial, renewal/update and HeartCode Checkoffs.

PEARS - Pediatric Emergency Assessment, Recognition and Stabilization teaches providers who infrequently deal with pediatrics how to use a systematic approach to quickly assess, recognize the cause, and stabilize a pediatric patient in an emergency situation.

BLS - Basic Life Support for healthcare professionals trains participants to promptly recognize several life-threatening emergencies, give high-quality CPR, deliver appropriate ventilations and provide early use of an AED. Offerings will include provider/initial, renewal/update and HeartCode Checkoffs.

All available courses can be found on our new registration portal at: [WVEMS Registration](#)
